FAMILY DOCTOR MADE MILLIONS OF FRIENDS

Fifteen years after his graduation, Dr. Caldwell became famous for a single prescription, which now, after forty years, is still making friends

Today Dr. Caldwell's Syrup Pepsin is the world's most popular laxative Millions of people never think of using anything else when they're constipated, headachy, bilious, feverish or weak; when breath is bad, tongue coated, or they're suffering from nausea, gas or lack of appetite or energy

Dr Caldwell's Syrup Pepsin is made today according to the original formula, from herbs and other pure ingredients. It is pleasant tasting, thorough in the most stubborn cases, gently effective for women and children Above all, it represents a doctor's choice of what is safe for the bowels.—Adv.

FUND SUBSCRIBERS TO GET MEMBERSHIPS

Three Thousand Marion Persons To Receive Red Cross Cards Soon.

Approximately 3 000 subscribers to the Marion Community Fund will within the next week receive a small card notifying them of their membership in the Marion Red Cross chapter

Unless otherwise specified, a small portion of each Community Fund subscription will go to the Red Cross, one of the Fund's 10 agencies In order to keep its local list of members, the Red Cross distributes membership cards among subscribers

The greater share of Red Cross funds goes toward local chapter work However, a small part goes to the national organization of the Red Cross for emergency and disaster relief

An example of what the national organization does with this money is shown in a report recently received by Miss Margaret Dowd, secretary, covering May activities Relief was given in six states in disasters which claimed 133 lives injured 400, and demolished 405 buildings.

Disaster relief was also given between 15 000 and 20 000 persons driven out of their homes by floods

"Relief in war and in time of disaster are the two charter obligations of the Red Cross," Miss Dowd said

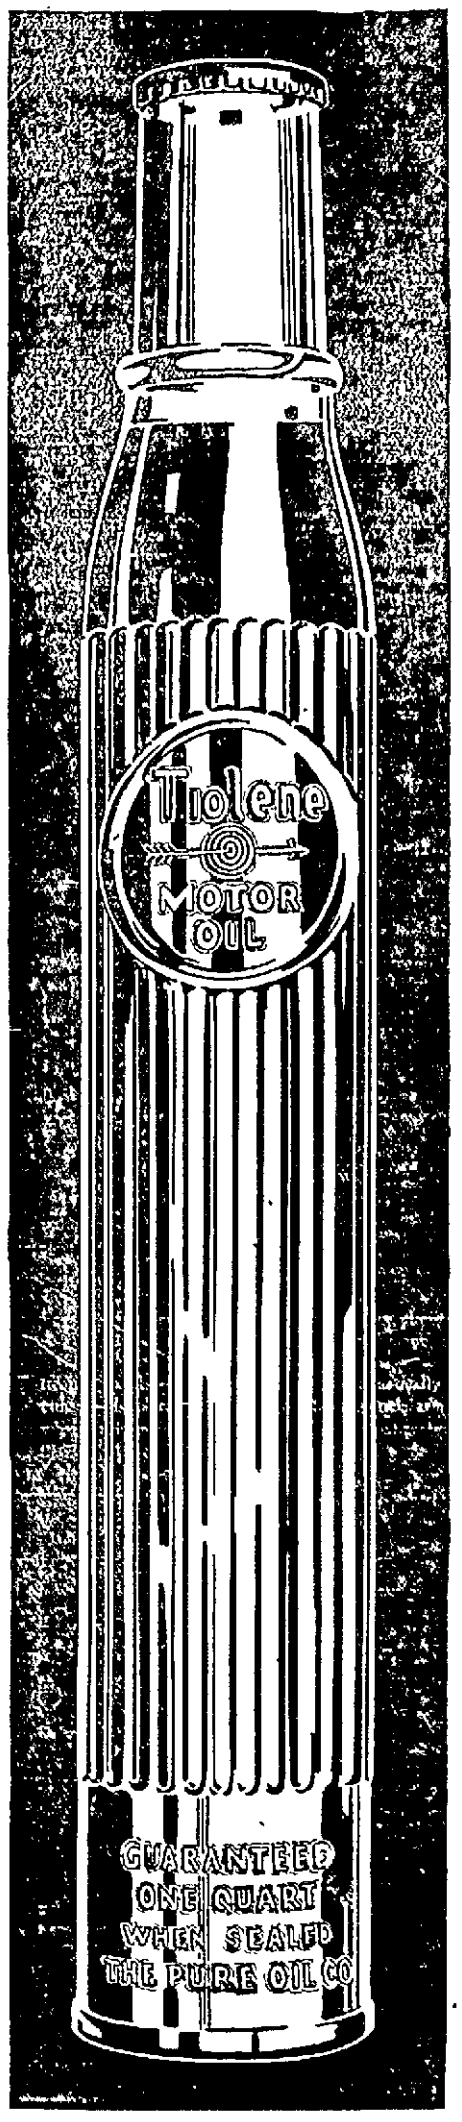
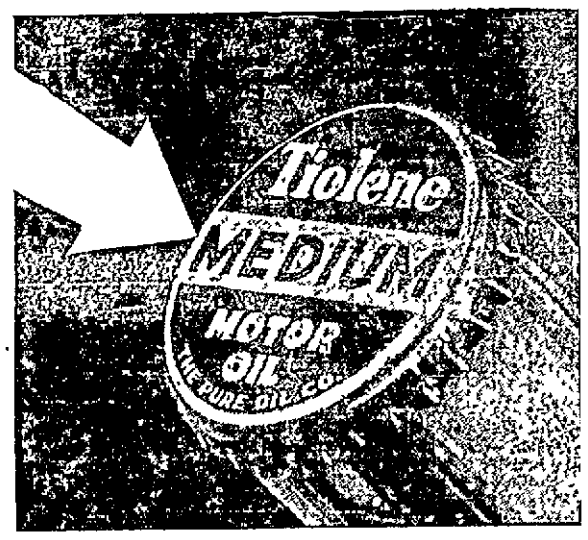
WHILE TOURING

insist on this protection against motor oil substitution



Pure, first-quality oil is the best insurance you can get against an overheated motor, burned-out bearings and other motor ailments that destroy touring pleasures. Be certain to make complete oil change at your favorite station before leaving home—refilling with clean, pure TIOLENE, poured into your motor from substitution-proof sealed bottles. Tiolene is the motor oil that gives better protection for 1000 miles driving than ordinary oils give for 500.



That seal is your protection against cheap oil substitution. Do not accept Tiolene if the seal has been broken or tampered with.

35c a quart—and worth more

Sealed Tiolene

100% PURE PENNSYLVANIA OIL

at

Pure Oil dealers and service stations

HERE is a double message to motorists who would avoid lubrication troubles while touring.

First, use Tiolene, a 100% Super-Pennsylvania motor oil, for longest, safest protection to your motor.

Second, *beware of substitution* when adding oil or having oil changed. Investigations show that in some instances the substitution of cheap, inferior oil has reached as high as 35% to 40% of all sales.

How Tiolene protects you

At home or while touring, Tiolene is poured into your motor from *sealed bottles.*

Tiolene bottles are sealed at Pure Oil Plants—and *remain* sealed until opened in your presence. You see the seal of every bottle *broken* and *destroyed.*

You *know* that you are getting the kind and grade of oil you pay for—that substitution is impossible.

This extra Tiolene protection against substitution costs you nothing. Yet the freedom from trouble and anxiety it brings you on tour may be worth many times the cost of all the Tiolene fillings your trip requires.

Stop where you see the Pure Oil blue-and-white sign. Say "Tiolene in Sealed Bottles."

You get the oil that gives better protection for 1000 miles than ordinary oils give for 500. Dealers and service station salesmen who sell Tiolene *want* you to have this absolute protection against cheap oil substitution.

STOP—where you see this Tiolene sealed bottle display.

LIGGETT STIRS UP BEE HIVE

State Officials and Westerville Challenge Accusations of Prohibition Violations.

BY MURRAY POWERS
Staff Correspondent for The Star
By Brush-Moore Leased Wire

COLUMBUS, O., June 12 — It sounds like a bee hive, but that steady buzzing radiating out of the Ohio State capital is merely the aftermath of the appearance of Walter Liggett's article, "Ohio Lawless and Unashamed," in the magazine Plain Talk.

The article is just one more of the effusions on prohibition, its evils and its advantages, that pop out, like jack-in-the-box, with increasing regularity, and upset both officialdom and citizenry.

And while newsstands all over Columbus put hush piles of the red-covered magazine on the sidewalks in front of their places of business, denials of Liggett's statements and declarations of indignation are coming fast and thick.

Cooper Answers Promptly

One of the first to answer the claims of Liggett that liquor conditions are terrible in Ohio was Gov. Myers Y. Cooper. The chief executive asserted there was no truth in Liggett's statement that liquor was served during the recent Ohio League of Republican clubs dinner held at a local hotel. He furthermore vigorously denied that his state commerce director, Ed. D. Schorr, set up a portable bar in a hotel room and served drinks to delegates at the rally.

Next Rupert R. Beetham, state prohibition commissioner, denied that Columbus was filled with speakeasies. The commissioner admitted that there were bootleggers in the state capital but he said that both Columbus and Cleveland were drier than the majority of cities their size.

And while it is admitted by most observers that although there undoubtedly is truth in some of Liggett's magazine articles there still is a great part of it that is based purely and simply on rumor and is to a great extent fiction that most newspapermen could sit down and write without ever venturing beyond the confines of their daily newspapers.

Westerville Militant

Westerville, home of the Anti-Saloon league, apparently has taken Liggett's slapping to heart.

Citizens of the little village and leaders of the Anti-Saloon league there have posted $1,000 reward for information proving that "there are 20 speakeasies in the town."

That was one of Liggett's contentions—that the village was full of speakeasies and that bootleggers called on their customers much as do the milk men making their daily rounds to the backdoors of the citizenry.

It is generally agreed among editorial writers about the state that in Liggett's 22-pages of scandal about Ohio that he has covered too long a period without giving the state credit for the strides it has made, particularly in the eradication of the justice of the peace evil several years ago.

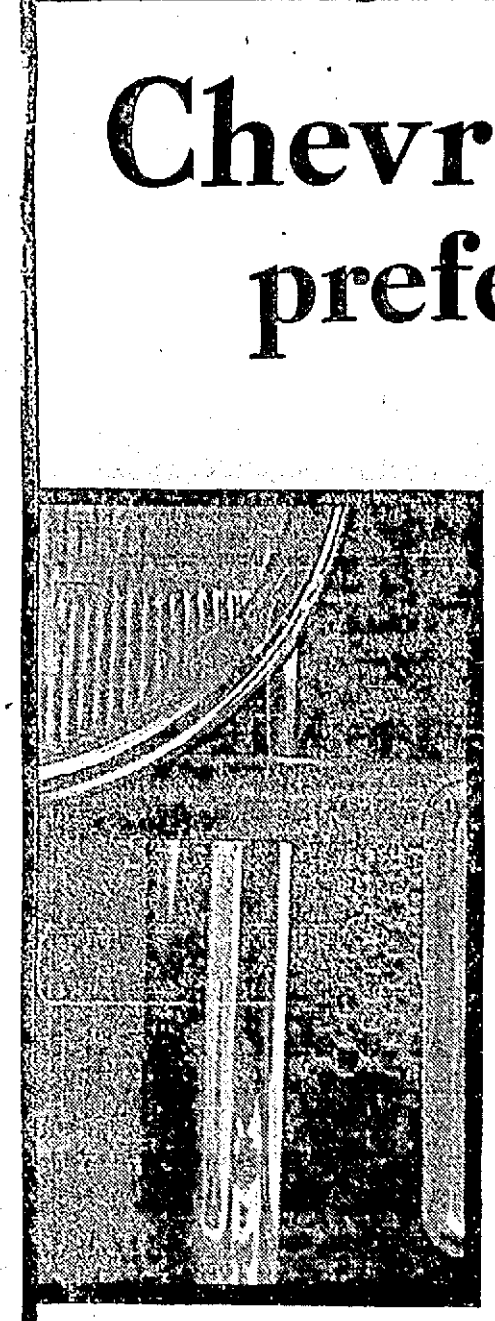
Chevrolet owners prefer Sohio 3½ to 1
over any other gasoline!



MORE than 14,000 Chevrolet owners throughout Ohio were interviewed face to face. More than 9,000 of these stated a definite preference for one brand of gasoline or another . . . Sohio Ethyl led all others with a vote of 2,697 . . . the next most popular brand scoring only 770!

That gives you a quick picture of results in a recent survey conducted by R. L. Polk & Company, an organization having no connection with any gasoline producer or distributor. Here's the Chevrolet score card:

Statewide Gasoline Survey—Chevrolet Owners in Ohio

Number of Chevrolet Owners Interviewed—14,184—*Number Stating Brand Preference*—9,401—*Where Interviewed*—Cleveland, Columbus, Cincinnati, Dayton, Akron, Canton, Youngstown, Lima, Toledo, Portsmouth, Zanesville.

GASOLINE USED	NO. PREFERRING	PERCENT OF PREFERENCES	RATE OF PREFERENCE FOR SOHIO
SOHIO	2,697	28.68	. . .
2nd Best	770	8.19	3.50 to 1
3rd Best	749	7.97	3.60 to 1
4th Best	598	6.36	4.51 to 1
5th Best—Red Crown	528	5.62	5.10 to 1
6th Best	430	4.57	6.27 to 1

There Must Be a Reason For Sohio's Popularity

When the great army of Ohio Chevrolet drivers registers such an overwhelming preference for Sohio Ethyl, it must mean that this modern motor fuel has proved its superiority in powering Chevrolet motors.

Perhaps it's Sohio's smooth, eager knockless power; or the fact that motors run cooler on Sohio Ethyl; or that Sohio furnishes more miles per gallon . . . perhaps it's all these good qualities combined that have made Sohio Ethyl the outstanding choice of Ohio motorists. Try it in *your* car . . fill up at the Red-White-and-Blue Sohio sign, anywhere in Ohio.

German Ship Claims Awards.

The United States will pay German shipping interests $71,213,000 for the ninety four vessels interned by them in American harbors at the beginning of the World war which were seized by this country at the time of our entrance into the war The awards which, with interest from July 2 1921, to December 31, 1928, aggregate that amount were this week made by James W Hemick war claims arbiter, under an act passed by congress two years ago authorizing a maximum of $100 000,000 to cover the claims for the vessels seized The greater part of the total awarded will go to the Hamburg American and North German Lloyd lines The former will receive $38 801,100 and the latter, $27,311,000, each of these two sums including the interest on the claims awarded

The value of the seized vessels has been a matter of controversy for the last ten years The German vessel owners' claims amounted to approximately $230,000,000, and from this total estimates ranged downward to that made by the United States naval survey board, which was practically $34,000,000.

The largest single award made by the arbiter was for the one-time Vaterland, now the Leviathan of the United States Lines Inc —$13,088,000, including interest Other awards which, with interest, exceeded $1,000,000, were: Kronprinzessin Cecilie, $4,287,000; Kaiser Wilhelm II, $3,829 999, George Washington, $3 851,000, Amerika $2,979.000; Cincinnati, $2 387,000, Koenig Wilhelm II, $1,358,000, Hamburg, $1,355 000, Grosses Kurfurst, $1 300,000, Pennsylvania, $1,104,000, Princess Alice $1,361 000 and the Princess Irene, $1,415,000

It is true that this country had these vessels at hand for use in transporting troops and supplies during the time of our participation in the war, and did thus make use of a number of them, and that, following the war, the higher class vessels of the ninety-four were used for commercial purposes, but it may be just as well that the Germans didn't intern in our harbors any more ships than they did Considering what the country will pay for them, what it cost to recondition and maintain the vessels so used for commercial purposes, what it cost the country to operate them—they were operated at a loss—and what they brought when sold, they proved most decided luxuries

All told, the experience of this country in constructing vessels during the war and in the acquiring of vessels by seizure was not a fortunate one. The combined experiment was one of the most costly in our history as a nation, with one possible exception, the most costly. Our acquirement of shipyards and our construction of vessels which were obsolete before their keels were laid, if not before they were designed, developed an orgy of spending without parallel in history It is to be hoped that it will never be repeated Better still, that there never will again be occasion for a repetition of it.

"Too Great Reliance on Penalties."

Speaking in Boston George W Wickersham chairman of the national commission on law observance and enforcement, told an audience of 5 000 social workers attending the fifty seventh national conference for social work that prohibition enforcement agencies could find recent suggestion in the experience of England and Wales of better methods of attaining the object of the eighteenth amendment than those pursued in this country during the last ten years He credited a general process of education regarding the evils of excessive drinking and the bringing out of the advantage of forms of innocent amusement in large part responsible for the marked decrease in those countries in drunkenness and other evils ever attendant on heavy drinking

Chairman Wickersham cited other factors such as improved housing conditions cultural advantages and restrictions of the hours during which liquor is sold as the result of this educational campaign, and quoted one British magistrate who had told him that the decline in drunkenness had been so steady during the post war years that he had suggested to the chief superintendent of police that it was rather unkind to bring an offender into police court, that he ought to be taken to a museum

A large part of Mr Wickersham's address was devoted to what might be termed an arraignment of the American people at least that element of the American people which is consistent in its belief in the evils of drink and the benefits to be had from temperance He charged that no attempt worthy the name had been made to educate the American public as to the merits of prohibition since the ratification of the eighteenth amendment that temperance work had been abandoned and dependence placed upon the power of the government to impose fines and penalties and he urged that America might follow to good advantage the educational methods so successfully being followed in England and Wales for the curbing of the liquor evil

The problem of law enforcement, Judge Wickersham concluded 'is a matter of education in law observance Preventive measures rather than penalties should be emphasized Sympathy and helpfulness rather than the rod the cell and the stone pile, should be tried in order that lawlessness be reduced to the lowest point'

Without commitment regarding the merit or lack of merit of the Wickersham recommendation for the solution of the liquor problem there may be admission that his charge that 'no process of education or attempted education of the public of the value of prohibition to accomplish the maximum of temperance in the community since the eighteenth amendment has become a law is not without foundation of fact Practically all effort is directed to the establishment of respect for the law by punishing violators of it As Mr Wickersham put it too great reliance is placed on penalties

WASHINGTON'S MEMORIALS

Valuation of the Lincoln memorial as one would value a carload of potatoes—in terms of size or money—is evidence of a vulgar mind

It is easy to appreciate the sentiments of a recent Washington visitor after hearing a guide inform his patrons of the money value of the various monuments in the national capital His complaint has just come to the board of trade The guides say in defense that this question is most frequently asked by tourists Many are interested only secondarily in the beauty or sentimental associations of a memorial They think mostly in the relatively low plane of money values.

The saint frequently has been remarked of American tourists in Europe It is a favorite theme of those European satirists who would stress the vulgarity of visitors from this side of the Atlantic Art and sentiment it would seem, do not exist for them unless they can be expressed in terms of money A building or a monument impresses them by being the biggest or most costly object of its kind in the world, not by being the loveliest or the most full of the lore of those associated with it

Now we see this lamentable attitude demonstrated in Washington If it is a true index of American taste perhaps it would be better to have no memorials at all, for such an object is worth while only as it contains values which self-obviously transcend money and size values. It will be the duty of education to inculcate appreciation of a higher order of values

The visitor seems to be congratulated for calling attention to this crude vulgarity The guides can not be blamed They, for the most part merely are reciting something composed in accordance with public demand Certainly a few individuals among the numerous parties of Washington visitors are above listening to the stock in trade talks and receive real inspiration from the memorials of the Capital City holding in sculptured stone the spirit and glory of the nations past If there is one such individual in a hundred the memorials are well worth while Otherwise we only can hope that the standard of value of another generation will be on a different level—that they will be values of mind and soul rather than values of the bank account The visitors complaint is a sad commentary on the present state of American appreciation—Washington Star

A NEW INTERNATIONAL COURTESY.

A convention has been concluded between the United States and Chile, authorizing the authorities of the United States go board private vessels under the Chilean flag outside the territorial waters of the United States for the purpose of ascertaining if such vessels or persons on board them are endeavoring to import or have imported alcoholic beverages into this country Where the evidence is sufficient vessels may be seized and brought into an American port for adjudication in accordance with the laws prohibiting the importation of intoxicating liquors As a quid pro quo Chilean vessels are exempted from penalty or forfeiture for bringing liquor into the territorial waters of the United States, as long as they keep it under seal

The terms of this convention follow those of the treaties now in force with fourteen other countries with respect to the liquor traffic The first of these treaties was signed with Great Britain January 23 1924, since then Germany, Greece, Italy, Belgium, Cuba Denmark, France, Japan Norway Panama, Spain Sweden and the Netherlands have agreed to permit their vessels to be searched for liquor beyond the territorial waters of the United States This fact should not be lost sight of by that portion in Canada which is now telling the world that the Canadian government did a thing of unprecedented merit when it stopped issuing customs clearances for liquor intended for importation to this country.

A new international morality is evolving from prohibition in the United States. Other countries may not see eye to eye with us on prohibition as such but they are beginning to see the practical as well as the ethical aspect of encouraging their nationals to violate the laws of a friendly power The implications of the doctrine embodied in these fifteen conventions are much broader than any single piece of legislation They extend to every domestic law—Detroit Free Press.

Motherhood is one of Gods greatest gifts to the world There isn't a home that can function properly without a mother If she is sick the whole family is handicapped Motherhood means unselfish service, suffering and very often ill health

Young mothers have a better chance today than they had fifty years ago Scientific care has greatly lessened the dangers of childbirth No greater advance in the conservation of health and life has been made than in this field Prenatal care has done much to lessen the dangers Modern methods of obstetrics are making safe the life and health of mother and child

The expectant mother needs expert attention and the best of care Doctors have learned that she must have exercise out-of-doors life and recreation These are just as vital or even more important than at any other time of her life

She should be protected and assisted in her family cares by every member of the family It is the duty of husband relatives and friends to give every aid possible in the most unobtrusive way

It is best that the expectant mother should plan her own diet just as she would at any other time This must be done in order to preserve full health and vigor She should eat such food as will give adequate fuel value as well as body building material

After the fourth month there should be an increase in the amount of food taken It is important to meet the demands made upon her by her burden Body changes are carried on at a greater rate and she must have more protein food Milk is of the highest value in this respect while meat and eggs, because of their special qualities are also very valuable

Milk is rich in iron an element often lacking in the diet It is particularly important that the expectant mother, as well as the nursing mother, should take milk in liberal quantities at least a quart every day

Milk is lacking in iron which is a very necessary mineral in the system This may be had by eating meat, eggs and the green vegetables

We must consider the vitamins also Unless the food contains an abundance of the vitamins mother and child are sure to suffer To get these if the child is to be healthy and strong, the mother must include in her daily diet one or more salads, and two liberal helpings of green vegetables Among such vegetables are spinach, lettuce cabbage, cauliflower, peas and beans

She should eat too liberal amounts of bread and butter She may well include preserves honey and simple deserts It is a good thing to take some refreshments between meals in order to make up the required food intake These may include an orange a whole grain cereal with cream bouillon with egg yolk or milk and graham crackers

All these things together with a cheerful and calm spirit should make for your well being and that of your child Calmness of spirit is half the battle Modern enlightened care of mothers brings returns in life and health—Copyright 1930 News paper Feature Service, Inc

New York Day by Day.

BY O O MCINTYRE.

New York June 12.—A great city such as New York has many unusual ways—spare my days—of keeping the hopes from the limit One firm for instance has the window washing concession in a skyscraper area down town and is said to net a profit of $150 000 a year

Furnishing flowers to theaters free has lifted a florist name to the multi-millionaire ranks And the Broadway history that the Sunkind boys—three silent Jewish boys—began as hatcheck crew at the Hotel Astor, and made a huge fortune by gaining control of the hotel and cafe hat checking concessions

There is a man who has the monopoly on the purchase of empty bottles in hotels and restaurants of importance And what was—and probably is—the small town boys method of earning enough money to see the circus has become an enormous business

The gross turnover in empty bottles in New York is a quarter of a million dollars Down town an enterprising shoe-shiner acquired the bootblacking privileges in a number of crowded office buildings He became a sort of padrone with an army of industrious shiners doing the elbow work

The Big Shine in smart clothes makes the rounds in his car at intervals to see that things are running smoothly and is reputed to enjoy an income of $25 000 a year A country boy who conceived the idea of stands for out-of-town daily newspapers is also amazingly prosperous

Recently a discharged hotel valet opened up a valet service for bachelors For $10 a week he and his assistants attend to a customers pressing wants Buttons are restored, shoes are shined socks mended and so on He already has more than 1 000 customers

These are only a few instances where specialization in an age of specialization brought home the bacon A great industrial thinker recently observed Every job no matter how humble is an avenue of success if the holder uses his head as well as his hands Sounds Horatio Algerish—but it has been proven true

Glimpses of the Moon.

BY ARCHIBALD HENDERSON.

There is no little interest to be found in imagining, with our imagination, a little astronomical model of the earth, sun and moon correctly related to each other as to size and distance apart. Let us take a scale of one millimeter to 1,000 kilometers, that is a scale of one to the 1,000,000 Let us remember that the diameter of the earth is about 7 times that of the moon, and that the diameter of the sun is more than 100 times that of the earth The distance to the moon is about 240,000 miles and the distance to the sun is about 93,000 000 miles

In consequence of these relative sizes and distances, our model will be easy to design The sun will be represented by a sphere of 139 centimeters in diameter At a distance of 150 meters a ball the size of a hazelnut revolves about it. Around this hazelnut earth revolves a moon, 3½ millimeters in diameter at a distance of thirty-eight centimeters The sun is thus bout 400 times the distance from the earth that the moon is

Now, it takes the earth one year to complete one revolution round the sun In that year, the moon revolves rather more than twelve times round the earth Suppose the plane of the ecliptic, the earth's orbit, is the plane of the table-top on which I am writing The plane of the moon's orbit is different from this, indeed, it cuts the ecliptic at an angle of about five degrees The plane of the moon's orbit revolves very slowly, and for practical purposes is said to remain approximately parallel to itself The line in which the plane of the moon's orbit cuts the ecliptic is called the nodal line of the moon's orbit

Because this nodal line remains approximately parallel to itself, twice during the course of a year this nodal line points directly at the sun This state of affairs gives rise to eclipses both of sun and moon when the nodal line points at the sun the moon happens to be between the earth and the sun, it cuts off the light of the sun, and we have a solar eclipse If, on the other hand, the moon and the sun are on opposite sides of the earth we have an eclipse of the moon as the moon will pass through the shadow of the earth It happens but seldom that the sun moon and earth are exactly in a straight line When this is only approximately so we have what are known as partial eclipses of the sun or moon

In the dawn of history, eclipses were the most fascinating of natural phenomena as they were then believed to be a manifestation of deity

The early Babylonians made a special study of eclipses, and arrived at a result that today bears the same name which they originally gave it This is the Saros period of eighteen years and ten days between eclipses This periodicity is explained in the following way The nodal line of the moon's orbit while apparently remaining parallel to itself is really revolving very slowly in the plane of the ecliptic, making a complete revolution in eighteen years. Thomas, in his 'Heavens and Earth' illustrates the accuracy of this rule by the following table:

	1906	1
1 Total eclipse of moon	Feb 9	F
2 Partial eclipse of sun	Feb 23	March
3 Partial eclipse of sun	July 21	July
4 Total eclipse of moon	Aug 4	Aug
5 Partial eclipse of sun	Aug 20	Aug

The Saros period holds good in each with a maximum error of one day.—Copyright 1930 International Feature Service Inc

One learns that Secretary of State Stimson kept himself physically fit durnig the London conference by swinging Indian clubs One also remembers that when the late Chamberlain, great British statesman was asked how he accounted for his long life he said' 'I never walk when I can ride, and on two cigars I always smoke the strongest'

Chauncey Depew, who lived blithely to his ninety-two or ninety-three, also had some ideas about keeping fit Asked once if he exercised, he said' 'No, I keep fit by acting as pall bearer for my friends who do

Well, there's no general rule about anything Living is a fine art and one must do the best he can at it Some will do it one way and some another. Stimson with his clubs may be just as right as the old Chamberlain with his horse and buggy It depends on the man

And now we learn from the Baltimore Sun that 'an inferiority complex is the only thing that makes you turn off the radio and keep from waking the baby next door when it prevents you from complaining of the baby next door waking you by crying in the night because babies have a right to cry

'It is the sort of thing that makes you rush to return a book you have borrowed while it makes you hesitate to ask for the book that somebody has borrowed from you

"It 's the sort of thing that leads you to spank your dog for barking at the neighbor's cat, but prevents you from driving the neighbor's chickens from your flower garden and the ground that your neighbor may be defended, and after all, it is impossible for chickens to know that they are trespassing

"An inferiority complex is what prevents you from asking for a job which you would like to hold because it does not seem quite proper to seek it, and, at the same time it leads you to admire the man who lands the job for having the nerve to ask for it

'It is what keeps you from inviting Jones to dinner at the last minute on the ground that it is impolite, while accepting such last minute invitations yourself on the assumption that no discourtesy is meant"

Well, the facts are that this kind of behavior indicates something very much better than an inferiority complex Indeed you have these reactions—the desire to be courteous and a superiority to insult—you are not an inferior person You are a superior one You have a serenity which the inferior can never have

eats of charity and for the privilege of seeing a fresh chapter unfolded in heavyweight history

The scenes, the times and the gladiators in this futile extravaganza promoted by a corporation whose directors are millionaires and whose stock is sold in Wall street represent a far cry from the June night at Coney Island, 21 years ago when James J. Jeffries won the heavyweight title from freckled Bob Fitzsimmons before a crowd of 10 000

Sharkey ruled the favorite to beat back the challenge of his youthful German antagonist, keep the line of title succession in the United States and climax his own erratic futile career with a victory. The ex sailor fumbled his two previous chances, in 1927 and 1928 to battle his way into the championship spotlight Temperamental and uncertain though he has been the majority of experts picked Sharkey to win

Boxing skill and experience were on Sharkey's side with a vicious punch to support them Courage, ambition and an equally dangerous wallop were the main assets of Schmeling Both possessed the stamina for a hard fight, if necessary, to the limit of 15 rounds with a referee and two judges to cast the final verdict

Youth and its compelling forces were on Schmeling's side this time In that reversal of the situation, in the do or bust spirit of the underdog, many of the experts foresaw the German's best chance of triumph They envisioned Max in the same position as Dempsey at Toledo as Tunney at Philadelphia fighting against odds but also with an excellent fighting chance

Moreover, Schmeling represents the new Germany He is the first boxer to challenge for the heavyweight championship and typical of the youthful generation that has figured in Germany's athletic comeback one of the most remarkable in history

Fight fans to whom a heavyweight title affair is a ritual not to be missed have flocked to New York from all parts of the land as well as from overseas

Millions to Hear Account

The eye witnesses were numbered in thousands but the ear witnesses figured to run well up into the millions with a national network broadcasting the blow by blow details from the ringside On short wave lengths, the ringside story also was to be broadcast to Europe and South America, with the chances that Australia and the orient might be able to tune in More than 500 newspapermen were assembled to peer intently at the proceedings and contribute a few million words to the descriptive output

The fight preliminaries were billed to begin around 7 p m (eastern standard time) and the main bout at 9 p m

Schmeling Nervous

Schmeling was declared by Dr. William Walker, the boxing commission's official examiner, to be the most nervous heavyweight he has ever examined His blood pressure was exceptionally high though apparently due somewhat to temporary nervousness

Schmeling looks to be the typically stolid German type', Dr Walker said 'but apparently this conceals a very high strung temperament His blood pressure gives a count of 152 80 as compared with the normal of 120 70 Sharkey was 138 70 only slightly above normal'

A slight sprinkle of rain occurred shortly after 1 p m Eastern Standard Time It lasted only a few minutes and the general prospects still were that the weather would not prevent the fight

WASHINGTON June 12—Chairman Claudius Huston of the Republican national committee confronted his critics today with a flat denial of their charges that he had engaged in lobbying or used funds of the Tennessee River Improvement association to cover a deficit in his brokerage account

Striking back he alleged a whispering campaign had been directed against him and that accusations aimed at him were either fabrications or "distortions of the real facts inspired by partisan or factional motives"

Before the senate lobby committee Huston testified several months ago he had received as president of the Tennessee River Improvement association $36 100 from the Union Carbide Co and deposited the money with his brokerage firm Blyth & Bouner of New York This was paid and deposited in two sums $22 000 and $14 100

His denial was contained in a letter sent to members of the Republican national committee and made public last night after a Washington newspaper had obtained a copy of it It was his first public expression on the subject since his appearance before the committee, except for a denial that he intended resigning as head of the party

TARIFF BILL VICTORY SURE

Assurance of Passage Comes with Lining Up of Reed and Grundy.

By International News Service

WASHINGTON, June 12—In an announcement, widely interpreted as meaning President Hoover's approval of the Smoot Hawley tariff bill Senator David A Reed Republican of Pennsylvania this afternoon told the senate he would vote to enact the measure

He made the announcement under dramatic circumstances It was just after Senator George W Norris Republican of Nebraska the veteran insurgent leader had attacked the bill as a hideous monstrosity certain to increase the cost of living and to lay heavy tax burdens upon the farmers the poor and the weak When Norris concluded Reed arose and said: I expect to vote in favor of the tariff bill"

Grundy Also Lines Up

Senator Grundy later announced that he will vote for the bill scheduled to come up for final ballting before the senate Friday afternoon

Definite promise of support by Grundy and Reed insures passage of the bill

Hoover will sign the bill according to information given out in Washington today but will accompany his approval with a statement to the effect that he does not thoroughly approve all of its provisions.

GANGLAND KILLERS GET LIFE TERMS

Relatives of Convicted Men Enact Frenzied Scene in Cleveland Courtroom.

By The Associated Press

CLEVELAND, June 12—Angelo Lonardo, 19 and his cousin, Dominic Suspirato, 23, today were under life sentences in the state penitentiary for the gangland killing of "Black Sam" Todaro.

The youths were convicted of second degree murder last night just a year from the day Todaro was shot down on an East Side street in what police said was the Lonardo clan's revenge for the double slaying of "Big Joe" and John Lonardo, one time corn sugar dictators. Angelo was a son of Big Joe Lonardo.

Women relatives screamed and stampeded the courtroom as the verdict was returned and one of the frenzied spectators was reported to have threatened the life of Common Pleas Judge James B. Ruhl.

Mrs. Concietta Lonardo, mother of Angelo, recently was acquitted of complicity in the killing of Todaro.

Mississippi is expected to purchase 352,050 motor vehicle license tags for the year 1931. Twenty five automotor vehicle tags will be included.

FARMERS TOUR FEEDING PENS

View Activities of Youths Preparing Cattle for Livestock Show.

Special To The Star

KENTON, June 12—A number of prominently known livestock men accompanied Hardin county farmers on their route to feeding pens of county farm youths who are fattening cattle for entry in the annual Junior Livestock show at Cleveland in November.

The day's program included trips to four farms near Forest and tours to inspect cattle of John Anthony Holland, son of Mr. and Mrs. Willard Holland, Woodrow Nichols, son of Mr. and Mrs. W. A. Nichols, Richard Steiner, son of Mr. and Mrs. F. H. Steiner, and Ralph Kruckeberg, son of Mr. and Mrs. H. F. Kruckeberg.

A picnic supper was served at Lake Idlewild to farmers and their families and this part of the entertainment was followed by talks by some of the honored guests on the livestock tour.

Among the out-of-town persons on the tour were C. R. Martin of East Buffalo, N. Y., cattle salesman for the Producers Cooperative Commission association; A. F. Potter of Cleveland, manager of the Producers Cooperative Commission association; H. M. Hiser of Columbus, of the National Order Buying Co., and Ralph Howard of Columbus, representing the state department of vocational education.

E. R. Tam, supervisor of the Kenton high school Smith-Hughes department; F. H. Steiner, president of the Hardin County Farm Bureau; D. H. Ralston, president of the Hardin Livestock cooperative association, and Willard Holland, manager of the County Farm Bureau, Livestock and Farm Bureau Service Co., were among active farmers who completed the entire tour.

Lucky Star of Max Schmeling To Fall Before Jack Sharkey's Attac

BY BILL CORUM
I. N. S. Sports Writer

NEW YORK, June 12—The lucky star of Max Schmeling, which rose so rapidly in the pugilistic skies, will fall tonight before the thudding fists of Jack Sharkey, never perhaps to rise again.

In that diamond-white patch of light set in the grotesque shadows of the Yankee stadium, the "man who looks like Dempsey" is going to meet a sailor who can fight like hell.

That smoldering fire which has burned so long behind the eyes of the lonesome Lith will flame this evening and we shall see a fighter worthy of the name....a strange fellow, too embarrassed to wear it openly, but deeply proud of the tiny American flag stuffed into the pocket of a faded old blue and gold navy bathrobe....a rippling, tearing, fighting man who can take it and give it—and will....a game guy, because only a game guy takes his lickings with his mouth shut and fights his way back from heartbreak and defeat through the hissing and jeerings of the mob....a champion.

HE is a mercurial fellow, this Jack Sharkey, who was born and christened Josef Paul Cuckoshay in Binghamton, N. Y., 28 years ago come October 26. He is not yet settled mentally and in times of stress he does weird things. But I have watched him closely at every opportunity for four years now and unless all the signs fail this big night to clock. He is fairly aflame with ambition and the conviction that he is Schmeling's master; a combination that makes a very dangerous Sharkey. Nor do I underrate Schmeling.

The black-crowned lad with the flashing smile is young and strong, as sure of his destiny as Sharkey, and probably as game as any man. I can only say "probably" because Max has yet to face a puncher in this country who could hit hard enough to hurt.

On some nights the German might very well beat some Sharkeys. But not this Sharkey on this night. The way the battle plans are drawn, the way Jack talks and acts and (I believe) thinks, the courageous youngster from the banks of the placid Elbe is being pitched too high. Saving a foul, some accident, or the luckiest sort of a break, I don't see how he can possibly win.

* * *

THERE is, of course, the death and destruction he throws with that short right hand, but to hurt 'em you must first hit 'em and even if he does, how many times the past five years has Sharkey been knocked down?

But along about 10 this evening we shall know all the things we can only guess at now. Along about 10 those who can by hook, crook, or sawbuck, pry their way into the stadium are likely to see the most exciting heavyweight fight they have seen in many a June moon. And at or about 10:20, by your pocket watch, Jack Sharkey will be the heavyweight champion of the world.

It has been a long and frequently discouraging climb that Sailor Sharkey has made from the decks of the destroyer Denver to the main crow's nest. Three times since he exploded the two black menaces — Wills and Godfrey—and knocked Jim Maloney limp, Jack has been within hail of a title shot. This is the next time he ever got one.

After weighing all the evidence gathered in days of investigation at the two training camps it seems to me that Sharkey should stop Schmeling in five or six rounds. I pick him to do it in the sixth. Jack himself refuses to name a round, but he told me before leaving Orangeburg that it would not go the limit.

* * *

"IT all depends on how closely he covers up," he said. "When a fellow gets in behind those elbows it is pretty hard to get a shot at him, but it won't go the limit. One way or another I'll pry him open and then...." with which Jack abandoned more words and lashed a mighty right hand through the air to illustrate what would happen then.

Yes, he is very confident. He has the heavier guns and the spark which to fire 'em. He has through the stiffest punishment ring could produce in the past years and while he has not a come out unscathed he never been disgraced.

He is ready. He is determined is game. I give you Jack Sha a far better fighter than the ma knows.

Roy Rice seemed headed toward a beautiful shutout victory over the league leading Calvary nine last night at the Silk Mills until the last of the fifth frame when the left side of his infield and outfield went to pieces and the Calvarites headed toward a somewhat sloppy 9 to 1 triumph. Five runs in the fifth and four more in the sixth did the work. John Clark kept his No. 1 team in a tie with the undefeated Calvary nine when Zig Snyder just edged out a 6 to 5 win over the winless Trinity outfit.

Rice had a pretty change of pace last evening and had the hard-hitting leaders at his mercy for the first four innings. Only two hits were gathered off him in this time. One of these was a triple by R. Gibson to start the third round, but Roy tried the next three batters on an infield grounder, a strikeout, and a fly to center field. Meanwhile Epworth had touched Gruber for a lone tally in the third on Baldauf's bobble at short and Penry's long triple to deep right center. This was the end for "Grube" allowed only 13 players to come to bat in the next four innings.

Errors Costly

Gruber, R. Gibson, Robbins and A. Baldauf singled in succession to start the fifth and then four infield errors in quick rotation sent three big runs across. The Epworth inner defense went completely to pieces in the next inning when the winners scored four times on one hit, Robbins triple to left which opened the inning. Robbins, R. Gibson and Penry featured the hitting with a triple and a single apiece.

John Clark had quite a lot of trouble with the pesky Baptist aggregation and went into the seventh inning with a tie score staring him in the face. However the Methodists didn't fool around long and Virden, McAninch and Huntsman plated in quick order to tee the game. Mr. Clark will spend the next six days worrying whether or not his hurling ace, one Mr. Robert Gamble will be recovered from his recent sickness in time to hurl the all-important Calvary game next Tuesday evening at Lincoln Park. Calvary will be a terrific favorite to win if Gamble fails to appear but if the lanky moundsman does show up it's anybody's game, and at least an even money bet on Epworth.

Christians reached the top of the second division by hitting Eddie Mantz and Vanderhoff to all corners of the field while defeating Epworth Juniors, 13 to 6. The loss sent the Lingo team into a tie for sixth with the Lutherans at one game won in five starts. Two big innings served to win for the Christians. A four run splurge in the first frame and a five score in the third was good for nine runs and victory. However they added two more in both the fourth and seventh for good measure. Bill Roush's home run in the fifth with two mates aboard was the clouting feature of the tilt although Roscoe Rank carried away hitting honors for both teams with two doubles and two singles in four trials.

Saints Trim Lutherans

St. Mary's tied Epworth Seniors for third place two full games behind Calvary and Epworth No. 1 by easily trimming the Lutherans, 6 to 2. However the victory wasn't actually so easy as it seems at first glance for Kochensperger blanked the Irish the first four innings only to see them score twice in the fifth and repeat for four more in the sixth. Hogan hit for the circuit for Saints to open the sixth frame, Gene Gunder gave up only seven hits, three of which were gathered by Larson, Lutheran shortstop. The losers collected a home run, triple and two doubles during their sixth inning rally.

The scores and batteries:

Lutherans	000 010 1—2

GOING GOOD

By The Associated Press

CHICAGO, June 12—A promise to "get going" when a finger injury healed has been kept by Charlie Root, Cub right-hander who led National league pitchers last season.

Since his recovery Root has won three straight games, two of them shutouts, has pitched 20 consecutive scoreless innings and has yielded two runs in 27 innings. In the first of the three contests Root defeated St. Louis, 2 to 0, giving five hits. Next, he gave Brooklyn two hits and won, 13 to 0. Yesterday Philadelphia was beaten by 6 to 2 with Root in the box. He gave the Phillies eight hits, making a total of 15 hits in three contests, and 26 scoreless innings out of 27 pitched.

Robins Looming as Strong Possibility for Championshi

SENATORS CUT DOWN A'S LEAD THROUGH CLEVELAND VICTORY

Hudlin and Ferrell Collaborate in Tribe Triumph Over Champs.

BY HERBERT W. BARKER,
Associated Press Sports Writer.

Despite a nine-game winning streak by their dread rivals, the New York Giants, Wilbert Robinson's amazing Brooklyn Robins continue to show their heels to the rest of the National league field and confidently look forward to their first pennant since 1920.

Nothing could better illustrate the fast pace the Robins have been setting than the fact that the Giants, despite their long string of wins, still are five games out of first place.

The Giants took Pittsburgh over the hurdles, 9 to 2, yesterday, but gained not one inch of ground as the Robins, behind Dazzy Vance's great pitching, nosed out the Cincinnati Reds, 2-1.

Vance held the Reds to four hits but it took a pinch single by Al Lopez in the ninth to bring the Robins victory. Curt Walker's pinch home run in the eighth had tied the score but in the ninth the Robins filled the bases and Lopez, batting for Vance, broke up the ball game with a single.

Giants Hit Hard

The Giants slammed Meine and Jones for 16 solid hits to trounce the Pirates who found Karl Hubbell a mystery they could not solve. The Giants had the game won as early as the sixth inning, leading by 4 to 2, but decided to make it safer by scoring twice in the seventh and three times in the eighth when Mel Ott clouted his 13th homer with two on base.

Charley Root's fine pitching enabled the Chicago Cubs to break their losing streak at Philadelphia's expense, 6 to 2. Cuyler's homer with two on in the third gave Root all the runs he needed to win. The victory left the Cubs in second place, three and a half games behind the Robins and a game and a half ahead of the Giants.

In the American league, Washington's Senators advanced to within a game and a half of first place by whipping Chicago, 2 to 1, while the Philadelphia Athletics were bowing to Cleveland, 6 to 2.

Lefty Grove, Athletics' left handed ace, went nearly two months without losing a game but was charged with his second defeat in as many days yesterday. He was no puzzle to the Indians and retired in favor of Ernie Shores after the seventh inning with Cleveland leading 3-1. Willis Hudlin pitched a strong game for the Indians until the ninth but was removed when the A's made a few threatening gestures. Ferrell finished up in fine style.

Win in Ninth

Washington scored the winning run against Chicago in the ninth inning. Hadley, Washington pitcher, allowed only two hits for seven innings but was removed after Snead Jolley's triple with Kerr on first the score in the eighth. Braxton held the Sox safe thereafter.

Detroit put on a seven-run rally in the seventh to trounce the New York Yankees, 13 to 7. Ownie Carroll, former Tiger pitcher traded to New York, was driven out of the box in the fifth inning and Gomez, McEvoy and Johnson were not much better.

Other scheduled major league games were postponed.

UPSETS FEATURE OF ASSOCIATION GAMES

Minneapolis Trims Solons and Colonels Take Walloping from Blues.

By The Associated Press

COLUMBUS, O. June 12—The second division teams in the American Association have been coming in for a streak of winning ways—as witness victories of the Blues over the league-leading Colonels 4 to 1, and of the lowly cellarites, Minneapolis, over the Senators, 8 to 6. Toledo won from St. Paul 5 to 4, and Indianapolis trimmed Milwaukee by the big score of 10 to 14.

Rain last night interrupted the Indians' and Brewers' plans for a double bill. The night game was postponed because of the showers.

The line-up of teams today was the same, with Minneapolis at Columbus, St. Paul at Toledo, Milwaukee at Indianapolis, and Kansas City at Louisville.

BERNIE NEIS TRADED

MINNEAPOLIS, Minn., June 10—The Minneapolis American Association club today traded Elmer Yoter, infielder and Earl Smith outfielder, to Columbus for Bernie Neis, outfielder.

PRO NINE HITTING BALL AT .356 CLIP

Marion Shovel Team To Try for Fourth Victory Against Columbus All-Pros Sunday.

A baseball team that's hitting at a .356 clip as an entire team can't lose a whole lot of ball games in a season and that's just what the Marion Shovel nine is doing at the present. This outfit, that formerly was known as the Marion Merchants has copped three out of four games so far and would have had a clean slate if the management had procured more than one hurler for last Sunday afternoon.

The local nine went into the eighth frame on the long end of a 10 to 2 score, but came out of it on the short end of an 11 to 10 count, thanks to seven bases on balls given by Simmons, the starting Marion moundsman. The Marion team had just nine players on the field and consequently had to leave this one man in there until Harry Pine, right fielder, was put on the hill.

The locals will get a fine chance to show fans here that they have a better-than-the average aggregation next Sunday when Mike Schmertz' all-professionals of Columbus hits the local diamond. This team has won seven out of ten games including tilts with the Springfield Central league team, Federal Glass and Havoline Oils of Columbus, Columbus Kerstones, Mansfield and White Hall. The losses came at the hands of Springfield, Richmond and Dayton.

The Columbus nine will present the following lineup against the Shovel outfit: Bob Rappse, Mulbarger or rf, Ray Fenner-1b, Stanley-2b, McCready-2b, Callahan-ss, Johnny Kessman-3b, Nelson-lf, Casanta-lf, Hansonef, Hy Myers, Jim Davis, Hlenle Mead, pitchers. Mead will probably be on the mound for the visitors and he is one plenty tough puzzle for any semi-pro team to solve.

Batting and fielding averages computed early this week find Ping Rizor leading the hitters with .559 and eight players fielding perfectly.

The batting averages follow:

Player	A.	R.	H.	D.	T.	Pct.
Rizor	17	5	10	5	1	559
Pine	20	6	11	5	1	550
Bacon	18	5	8	0	2	445
Rowan	18	9	7	3	0	389
Price	18	5	6	1	0	333
Alexander	13	4	4	2	0	307
Mackey	18	2	5	0	0	278
Simmons	4	0	1	0	0	250
McCracken	8	1	2	0	0	250
Shoup	16	3	3	1	0	188
Richardson	5	1	0	0	0	000
Colegrove	5	1	0	0	0	000

The individual fielding averages follow: Bacon 1000, Pine 1000, Rowan 1000, Price 1000, Richardson 1000, McCracken 1000, Simmons 1000, Colegrove 1000, Mackey .973, Alexander .923, Rizor .750, Shoup .750.

AMERICANS FAVORED TO TAKE VICTORY IN WIGHTMAN CUP PLAY

Eight Series of Tennis To Start at Wimbledon Friday; Begun in 1923.

By The Associated Press

WIMBLEDON, England, June 12—The eighth Wightman Cup tennis series, to be played here tomorrow and Saturday, finds the United States strongly favored to win its fifth victory in the competition begun in 1923.

On paper at least, the American team headed by Mrs. Helen Will Moody appears much more formidable than the English squad and expert observers will not be surprised if the invaders win by a greater margin than the 4-3 advantage they held last year.

The series consists of seven matches, five singles and two doubles. Two singles and one doubles match will be played on Friday and three singles and one doubles on Saturday.

McKINNEY'S COTTON PICKERS ORCHESTRA

To Be at Rainbow Garden

This attraction is a Gene Goldkette's and is the Original McKinney's Cotton Pickers, having played at the Graystone Ballroom for the last two years with the exception of very few evenings when playing important engagements out of Detroit This band will be enjoyed by dance lovers immensely. The band is a very unusual one. It is one of the very few before the public today that can play at a ballroom from weeks to months and months to whole seasons and still retain its popularity with the dancers

Whether or not the members of this fine musical organization have ever seen the cotton fields of the Sunny South, they possess the sense of rhythm, harmony and melody peculiar to their race to a marked degree Time, tempo, rhythm, accentuation, melody, harmony; all are theirs, and they are equally at home playing the soft, plaintive melodies of the Southland and the hottest of hot jazz

In the band are some singers so good that they may well be classed as vocalists, and several real comedians, of whom Cuba Austin, formerly a big time vaudeville actor, is chief. Although he is percussionist, in plainer words, drummer, and except during the playing of special numbers, sits WAY BACK," his antics never fail to amuse. Donald Redman, a very talented musician, is director. He arranges practically all the music for the band and also does special arranging for some of the country's greatest bands

This great band will be at Rainbow Garden Saturday evening, June 14 Dancing 9 to 1 o'clock Only appearance this season.

In presenting McKinney's Cotton Pickers at Rainbow Garden we do so with the thought foremost in mind of fulfilling our policy to the extreme—of giving our patrons the very utmost in dance diversion

BILL HAY, ADDS SCOTCH FLAVOR TO FAMOUS ACT

By The Associated Press

CHICAGO—The popularity of Amos an' Andy, black face radio sensations, has a mellow scotch flavor

The Scotch flavor is Bill Hay, now one of America's outstanding announcers, who not so long ago was selling furniture and phonograph records in a little town in Nebraska When Bill's clean cut Scotch burr bites the air, announcing the radio's favorites, or sends millions to bed in good humor with the famous good night to y' a'," it's not synthetic Scotch that does it. Bill was born in Dumfries, Scotland

In school he sat in the seat once occupied by Barrie, and thought of becoming a surgeon Then he worked for Thomas Cook & Son in London and decided to go to India Finally he came to the United States and landed in Nebraska selling furniture A town tough came in one day and wanted some real Jazz phonograph records 'And make them hot, brother'

Capable Salesman

Bill tried a couple The customer registered hotedom I'll play you one that's really hot" said Bill He put on some ballet music from Faust and then a beechanale from Samson and Dellilah

"That's the stuff' said the customer, and Bill told him what they were

Hay sold him two dozen high-class records

When KFKX was established at Hastings Neb, as the relay station for KDKA a program director and announcer was needed Bill Hay got both jobs When interworld radio succeeded relays Hay came to Chicago to 'make radio not a job, but a profession' he says

Bill has been doing the announcing for Amos 'n' Andy since their earliest days when they were Sam n' Henry on WGN. For a long time listeners thought that it was he who was doubling both as the announcer and the gruff voiced half of the pair because of the particular enunciation This theory blew up after Amos 'n' Andy began making stage appearances

Stays With Noted Team

When Sam 'n' Henry left WGN where they first broke into the air channels, to become Amos n' Andy at WMAQ Hay went along When the chance came to do their stuff on the NBC chain his voice was considered highly important to their comic strip presentations So he is still a part of their radio careers started in January 1927

Hay smokes a briar pipe wears light clothes all the year round and hasn't had a glass for 10 years So does a Scotchman weather midwest winters

To the question 'Are you married' he answers with a groan from Amos an Andy

'Check and I talk check'

Bill Hay, announcer for WMAQ and for Amos 'n Andy whose "guid nicht to y' a" is broadcast trademark

RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says Constipation is responsible for more misery than any other cause"

But immediate relief has been found A tablet called Rexall Orderlies has been discovered This tablet attracts water from the system into the lazy, dry evacuating bowel called the colon The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose

Stop suffering from constipation Chew a Rexall Orderlie at night Next day brisk Get 24 for 25c today at the nearest Rexall Drug Store C G Ungericht—Adv

RED CROSS DROPS SWIMMING PLANS

Cut in Budget Necessitates Curbing of Activities, Secretary States Today.

An anticipated cut in budget resulting from failure of the 1930 Community Fund drive to reach its goal by several thousand dollars has resulted in decision of Marion Chapter Red Cross to omit life saving instruction from its summer program, Miss Margaret Dowd, secretary, announced today.

In view of the need of funds for welfare work, the executive committee feels the instruction in swimming and life saving can be better omitted than other work, Miss Dowd explained.

Plans were to employ an instructor during July and August to give free instruction in both life saving and swimming at Crystal Lake park, as has been the practice of the chapter for years.

Probabilities are that several volunteer instructors will make it possible for swimmers to obtain life saving certificates this summer, but no regular instructor can be assured according to Miss Dowd.

Cloudy with Showers Forecast for Tonight

Cloudy with showers tonight or Friday and not much change in temperature is the official weather outlook according to forecasters today.

Temperatures were returned to more moderate levels yesterday when a bright sun sent the mercury to a high of 78 for the day. The low last night was 62. A year ago the high was 82, the low 62.

GRADUATES AS NURSE

Miss Adrienne Midlam, daughter of Mrs. A. C. Midlam of 590 Hane avenue, graduated from University hospital at Columbus, Tuesday. Mrs. Midlam was in Columbus for the exercises. Miss Midlam graduated from Harding High school in the class of 1927. Late this summer she expects to take a postilla with the Crile clinic in Cleveland.

Large Delegation from Marion To Accompany Drum Corps to Meeting.

Buckeye Aerie No. 247, Fraternal Order of Eagles, met last night in the Eagles hall with the new officers occupying their posts for the first time. Two applications for membership were received and five persons were initiated into the order.

It was announced that the Marion Rapid Transit Co. would run special cars to Newark on Wednesday, June 25, for the benefit of those who want to attend the state convention of the Eagles to be held in that city from June 22 to 25. Charges for the trip are to be announced by the club.

The state drum corps of Marion, prize winners in state contests for the past 10 years will take part in the parade, June 25. The march of the Marion, in which 200 persons are enrolled, will be the feature of the parade.

The semi-annual report of the local aerie was made at the meeting last night.

Some candidates for city offices will be elected by the votes of the people.
